

**Children's Medical Center Dallas welcomes
Lillienne Chan, M.D. and Isabel Rojas, M.D.
to its Gastroenterology service.**

LILLIENNE CHAN, M.D.

Dr. Chan received her medical degree from the University of Texas Medical Branch in Galveston before completing her residency in pediatrics at UT Southwestern/Children's Medical Center. She completed her fellowship in pediatric gastroenterology also at UT Southwestern/Children's Medical Center. Dr. Chan has clinical expertise in inflammatory bowel disease, gastroesophageal reflux disease, eosinophilic gastrointestinal disorders as well as research interest in the genetics, diagnosis and treatment of inflammatory bowel disease.

ISABEL ROJAS, M.D.

Dr. Rojas received her medical degree from Universidad del Rosario in Bogotá, Colombia. She completed a specialization in management of health institutions at the Fundación Universitaria de Boyacá before completing her residency in pediatrics at University of Oklahoma, HSC, and a fellowship at UT Southwestern in pediatric gastroenterology. Dr. Rojas has clinical expertise in childhood liver diseases including hepatitis, fatty liver disease, and genetic liver disorders, as well as abdominal pain, chronic constipation and nutrition. She is pediatric board certified. Dr. Rojas speaks Spanish fluently.

Recognized by *U.S. News & World Report* as one of the top gastroenterology programs in the nation, Children's Medical Center treats a variety of common and complex gastrointestinal and hepatobiliary disorders using state-of-the-art diagnostic and therapeutic procedures to provide advanced treatment and research.

Children's Medical Center offers pediatric gastroenterology services at three locations across the Metroplex – Dallas, Plano and Southlake.

To refer a patient to the most convenient location, please call **888-730-DOCS (3627)**.
